

Design sketch

Tool categories

Repetition 1

what is he talking about?

The page displays categories of tools for users in each section. Each category contains several tools based on the use of each tool.

The user icon is intended for user information. The three-line icon indicates all tool categories. The rectangle icon indicates search. Boxes indicate some category. The icons at the bottom indicate the cart, wishlist and settings.

Actions users should take

Users can decide what they want to buy now. They can see tools from some of the categories shown (they can click on the box icon) or choose the three lines at the top right of the screen to view all categories.

Tool categories

Repetition 2

Design principle(s) are applied

- People like to have choices.
- Dividing categories makes it easier to choose the appropriate one.

Logical design

- Wish Mode (users can return to the product easily)
- Users can search for something new.
